

WEHDEH

A UNIFYING UNIT

One stitch after another, a significant amount of skill and accuracy, much patience and a pre-conceived artistic image are what have made Palestinian embroidery so authentic and valued over the years. Inspired by the unit of embroidery, Wehdeh - Naqsh Design House run by sisters Nisreen, Nermeen and Shireen Abu Dail hosted a remarkable exhibition celebrating its unique and timeless heritage. Wehdeh was introduced to the public in November at Tiraz: Wedad Kawar Home for Arab Dress and featured a collection of furniture, accessories and exclusive items all of which revealed a contemporary and creative take on the Wehdeh's unique qualities. The hand-finished items, with a focus on Corian, wood and copper, document a distinctive interplay of layering and material combinations. The profits from the exhibition will go to the Oun Project for the Children of Gaza. All items can be purchased from the exhibition and inquires about further items or customized requests can be made through Naqsh Design House. ■
